# TURNING HURT INTO HOPE

SANParks Honorary Rangers Midrand Region is pleased to invite you to a fascinating talk on one of SA's most important and iconic species, the rhino.

Presented by renowned Rhino specialist and Wildlife Veterinarian, **Dr Johan Marais**, this talk aims to not only educate people on the thousands of rhinos that have fallen victim to poaching, but to also inspire people to help save rhinos before it's too late.

Dr Johan Marais started the organisation Saving the Survivors, a foundation that is dedicated to helping injured and endangered wildlife, like "Hope" the rhino who became the international symbol for the rhino crisis.
